

Post Oak Savannah Groundwater Conservation District

Public Notice of Historic Use Applications filed with the District

Below is a list of applicants who have applied to the Post Oak Savannah Groundwater Conservation District (POSGCD) for Historic Use of groundwater according to the Rules of the POSGCD.

POSGCD Rule 7.14 (7) states: It is the intent of the District to determine existing and historic use of groundwater within the District as set forth under this rule.

POSGCD Rule 7.14(1) states: An owner of an existing non-exempt well that was completed and operational prior to the effective date (March 9, 2004), and that produced and used groundwater in any year during the existing and historic use period, shall apply to the District for an historic use permit. The application must be filed on or before December 31, 2007. Failure of an owner of such a well to apply for an historic use permit on or before December 31, 2007, shall preclude the owner from making any future claim or application to the District for an existing or historic use under these rules. The failure of a well owner to file an application for an historic use permit on or before December 31, 2007 shall cause the owner to forfeit his rights and ability to operate the well under these rules, unless the owner thereafter applies for and obtains an operating permit that authorizes production from the well.

POSGCD Rule 7.14(3) states: The District shall publish notice of the recommended proposed permits or denials and make such recommendations available for public review and inspection. Any applicant or any affected party shall have 90 days from the date of the above notice to file a request for hearing. The Board shall consider the proposed historic use permit application and any other evidence presented by an affected party prior to making its decision.

Below is a list of the recommended proposed Historic Use Permits containing the following information: Name and address of the permittee, Location of well, Use of the groundwater, and volume of production (volumes are stated in GPD (gallons per day) or Acre Feet (acre feet per year; whereas one acre foot= 325,851 gallons).

Recommended Proposed Historical Use Permits as of January 31, 2008:

- 372.) Douglas L. Duesterhoft
9765 CR 410
Caldwell, TX 77836
Location: 9765 CR 410
Use: Livestock
Volume: 3.5 Acre Feet
- 373.) Michael C. Cheney
24206 Royalwick Ct
Tomball, TX 77375
Location: Hwy 60 & FM 50, South on FM 50 6.5 Miles, West on CR 276 ½ Mile to Green Barns
Use: Irrigation
Volume: 140 Acre Feet
- 374.) Edmond G. Sebesta – Well # 1
11222 FM 2155
Somerville, TX 77879
Location: FM 50 to CR 227, West 2 miles past church, at shop turn right ¼ mile from shop
Use: Irrigation
Volume: 140 Acre Feet
- 375.) Edmond G. Sebesta – Well # 2
11222 FM 2155
Somerville, TX 77879
Location: FM 50 to CR 227, West 2 miles past church, turn right to metal building, well on left ¼ mile from building
Use: Irrigation
Volume: 180 Acre Feet
- 376.) Edmond G. Sebesta – Well #3
11222 FM 2155
Somerville, TX 77879
Location: FM 50 to CR 227, West 2 miles past church, at metal building turn West ½ mile, on left near oil tank
Use: Irrigation
Volume: 206 Acre Feet
- 377.) Somerville I.S.D.
P.O. Box 997
