

Across

- 2. Water bearing geologic formation.
- 4. Flowing stream of water.
- 8. Rain or snow falling on the land.
- 10. Consume a glass of water.
- 14. The amount of water required to cover an acre of land to the depth of 12 inches.
- 16. Condensed water vapor up in the air.
- 17. Edge of water body washed by waves.
- 18. What you do in the pool.
- 19. Efficient use of water.
- 21. If you don't swim you will _____.
- 22. When you conserve water, you also conserve _____.
- 24. Pumping more groundwater than is recharged is referred to as _____.
- 25. Soaked or covered with water.
- 27. The removal of dissolved salts or minerals from water.
- 28. Where do you take a bath?
- 30. That which causes water to be unfit for use.
- 33. Water found beneath the land surface in aquifers.
- 34. Water found on the land surface.

Down

- 1. Small receptacle from which you drink.
- 2. Substances with a pH less than 7.0.
- 3. Water drops falling from a cloud.
- 4. Rainfall flowing overland.
- 5. The sound of a waterfall.
- 6. Process of charging water with air to increase oxygen content.
- 7. Substance that renders water unfit until removed.
- 9. Water in solid state.
- 11. Where do you swim?
- 12. Replenish an aquifer.
- 13. The _____ cycle is the process that involves the weather.

- 15. Man-made body of water.
- 18. Sinking of land surface due to pumping too much groundwater.
- 20. Pumping water to crops.
- 23. Tidal waters between coast and barrier islands.
- 26. Abbreviation for evapotranspiration.
- 29. Metric measure for liquids.
- 30. Shallow, temporary lake in high plains.
- 31. Container used to hand-carry water.
- 32. Slow discharge of water from a faucet.

Can you find these water related words?

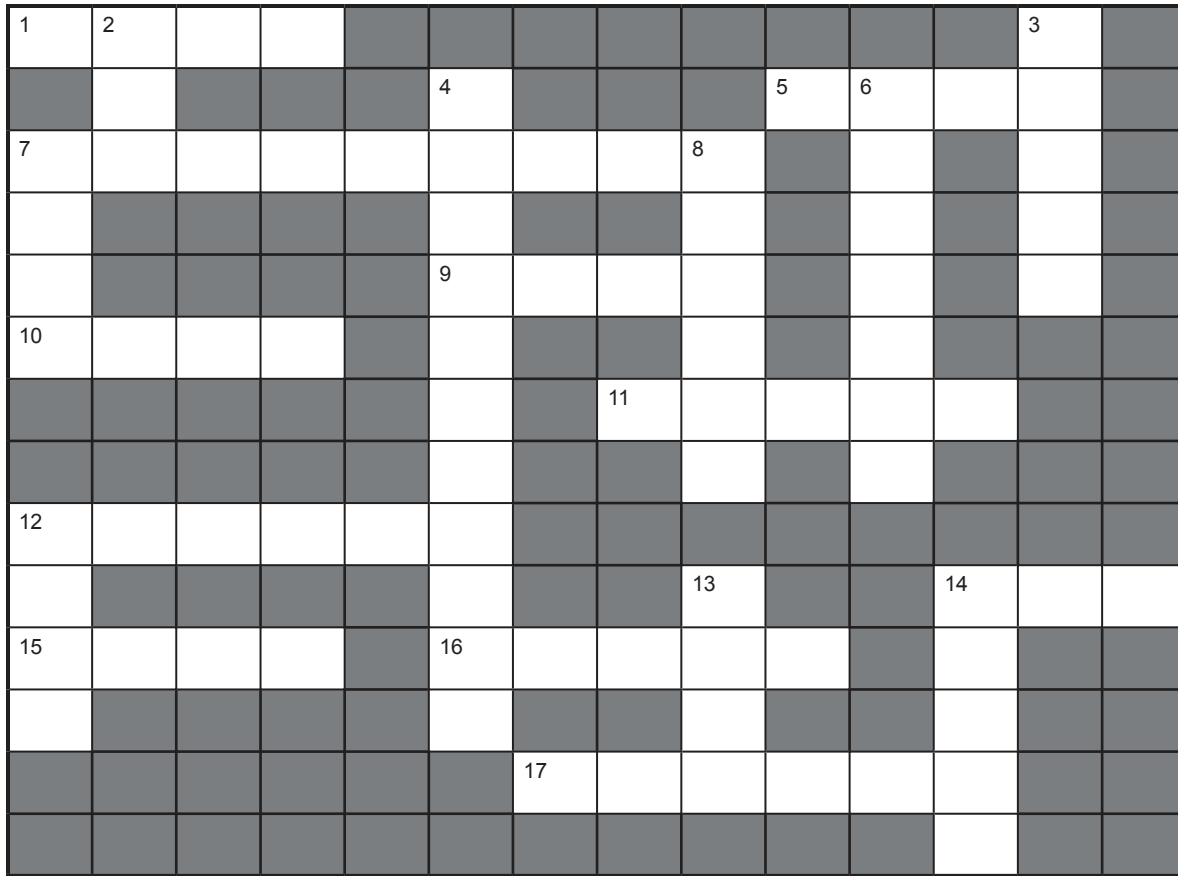

- acre-foot
- colonias
- contaminant
- estuary
- hydrologic cycle
- mining
- precipitation
- recharge
- runoff
- surface water
- aquifer
- conservation
- desalting
- groundwater
- irrigation
- playalakes
- pollution
- reservoir
- subsidence
- water quality

The largest nonstop rainstorm dumped 45 inches on Alvin during three days of July, 1979.

The nine major and 20 minor aquifers in the state produce enough water each day to fill a line of gallon jugs to the moon and back.

Texas has more than 5,700 reservoirs in the river system, however, a mere 74 of these contain 98% of the state's usable surface water supply.

The greatest official rainfall in one day was 29 inches in Albany, Texas in August, 1987, while unofficially the residents of Thrall reported 38 inches in 1921.

Across

1. Long tube for delivering water.
5. Washing or soaking the entire body.
7. Large body of water behind a dam.
9. Mechanical device to lift water.
10. Fun to ride on at a water park.
11. Metric unit of capacity.
12. Fixture for drawing water from a pipe.
14. Opposite of dry.
15. Covers mountains in winter.
16. Ninety-seven percent of the Earth's water found here.
17. To change water into ice, it must _____.

Down

2. Solid form of water.
3. Where the land meets a lake or ocean.
4. Water changing into vapor form.
6. Geologic formation containing water.
7. Home-made, flat, water craft.
8. To fix.
12. Lives in water and fun to catch.
13. Large body of water.
14. Liquid form of H₂O.
