

**Report on current and future work by the POSGCD Legislative Committee**  
**Submitted by Durwood Tucker, Chair**

Additional Members: Bob Wilson, Lee Alford, Tommy Tietjen

December 4, 2018

Due to the timing issues, the Legislative Committee was not able to meet as a whole to discuss TWCA consensus language in draft bills. At the direction of Chairman Tucker, the Advisory Committee, which shares two common members with this committee, met December 3, and discussed draft language from the Texas Water Conservation Association (TWCA) Interim Groundwater Committee, and advised the General Manager on how to vote on these issues.

Current status of work to be performed by the Legislative Committee:  
The Legislative Committee will next meet as necessary after beginning of the next session of the state legislature in January, 2019.
