Re: Request for extension for 2018 Post Oak Savannah Conservation District Grant

Dear Mr. Westbrook,

The City of Somerville is requesting a six-month extension to the 2018 Grant awarded by Post Oak Savannah Conservation District in the amount of \$381,105. The City and its engineering firm Jones & Carter have been delayed by right of way property easement acquisition.

The easement acquisition process has been delayed due to property research and locating property owners that no longer live in the area. We look forward to completing this critical step soon and moving forward with construction.

If any further information is needed please let me know. Thank you.

Sincerely,

Danny Segundo  
City Administrator  
City of Somerville
