**Gary Westbrook, General Manager**

April 29, 2020

### OFFICE MEMO

At the April 29, 2020 meeting of the Advisory Committee, the committee considered and discussed the purpose and content of the District's Mission Statement.

***The current Mission Statement is as follows:***

"The Post Oak Savannah Groundwater Conservation District (POSGCD) mission is to provide for the conservation, preservation, protection, recharging, and prevention of waste of groundwater, and to protect groundwater users, by adopting and enforcing Rules consistent with state law. The District will accomplish this mission by imposing spacing requirements, regulating production, requiring permits for wells and production, establishing water drawdown levels and monitoring groundwater levels and production, making appropriate adjustments to allowable and permitted production, and encouraging conservation."

***After discussion the committee recommends the following for consideration by the Board to become the amended District Mission Statement:***

"The Post Oak Savannah Groundwater Conservation District (POSGCD) mission is to adopt and enforce Rules consistent with State law and based on best available science which provide for the conservation, preservation, protection, recharging, and prevention of waste of groundwater, while recognizing the ownership of groundwater and the owner's right to assign or produce that property."

Respectfully,

Gary Westbrook

General Manager

Post Oak Savannah GCD
