Re: Limits on overhead for collaborative work performed

Dear Dr. Wilcox

After discussing your study with our Advisory Committee I am very pleased to offer a strong endorsement for your proposal to the USDA-NIFA Foundational Science Program—*Thicketization of the Southern Oak Savannas-Implications for Water Ecosystem Services*. However, consistent with past work, it is important to note we are unable to participate with you in this all important project if our overhead exceeds 10%. Please confirm you and your colleagues understand this limitation and are able to proceed with this limitation.

Sincerely,

Gary Westbrook
General Manager
