To:
Post Oak Savannah GCD Directors

June 12, 2020

Honorable Steve Young, Milam County Judge

Keith Schroeder, Burleson County Judge

Honorable Directors and Judges,

Much has transpired since I first learned of this situation and notified you of the Vista Ridge water being discharged into a creek bed in the San Antonio area Wednesday evening. I have endeavored to verify information and get answers so our Board can better understand this situation, and so the Board can accurately identify our responsibilities and appropriately discharge its duties. I remain in close regular contact with our General Counsel, Hydrologist, and Board President Youngblood. I will continue to gather information and I would expect the Advisory Committee to review all information by mid-next week so they may chart a course forward.

Please note that in the last correspondence from SAWS, it is indicated this discharge will cease today. Although this may not be the end of our responsibilities in this situation, it is welcome news.

Please see the link in this corresponding email to our website for a link to the original report and a collection of information gathered to date, including emails from SAWS and EPCOR in response to my inquiries. We are posting all of this on our website to provide everyone with the most current information, and will update as information becomes available.

Respectfully,

Gary Westbrook

General Manager
