## **Howard Sander – Bio**

Howard Sander provides custom website development to both small and large businesses alike and has a proven track record in creating sustained success for his client's website projects.

Howard Sander is well established in the web development community. He is a full-stack developer and has website clients throughout the United States. Mr. Sander is known for exceptional levels of website development knowledge and experience. Mr. Sander is a committed student of search engine optimization techniques and works with all of the popular social media platforms geared toward marketing applications.

Mr. Sander was Manager of Information Services at the Jackson County (Missouri) Prosecutor's office from 1993 to 1997 and was in charge of mission-critical software systems that supported over 50 simultaneous computer seats.

Formerly President of Softrak Data Systems, Inc., Mr. Sander provided software application development for both Windows PC and OSX Operating Systems.

Mr. Sander specializes in website design, software development, and online marketing. He taught basic computer instruction to faculty members at Longview Community College in Lee's Summit, Missouri and renews himself as a professional, adept at presenting technical content in easy to understand dialogue.

Project Achievements Include Development of:

- Political Fundraising Software
- Small Business Accounting Software
- Minnesota Multiphasic Personality Inventory Software
- Legal Case Management & Check Collection Software Software
- Website Design & Development for Many Different Business Markets.

Howard Sander's client list includes David Boyer Esq., Liberty TX • Pepperdine & Associates Inc., Fairway KS • Napier Fishing Charters, Fort Myers FL, • Platinum Properties of Miami & The Beaches, Miami FL, Jack Puryear Photography, Austin TX • Texas Photographic Workshops, Caldwell TX and many more.
