Community Programs

Rainwater Harvesting 101; May 13 2021. This course is a requirement of the POSGCD Rainwater Harvesting Rebate program and participants will receive a certificate that can be used to apply for up to \$3,000 in reimbursement of costs installing a system!

Edible Garden and Landscape Class; NEW workshop How to incorporate edible foods in your landscape.

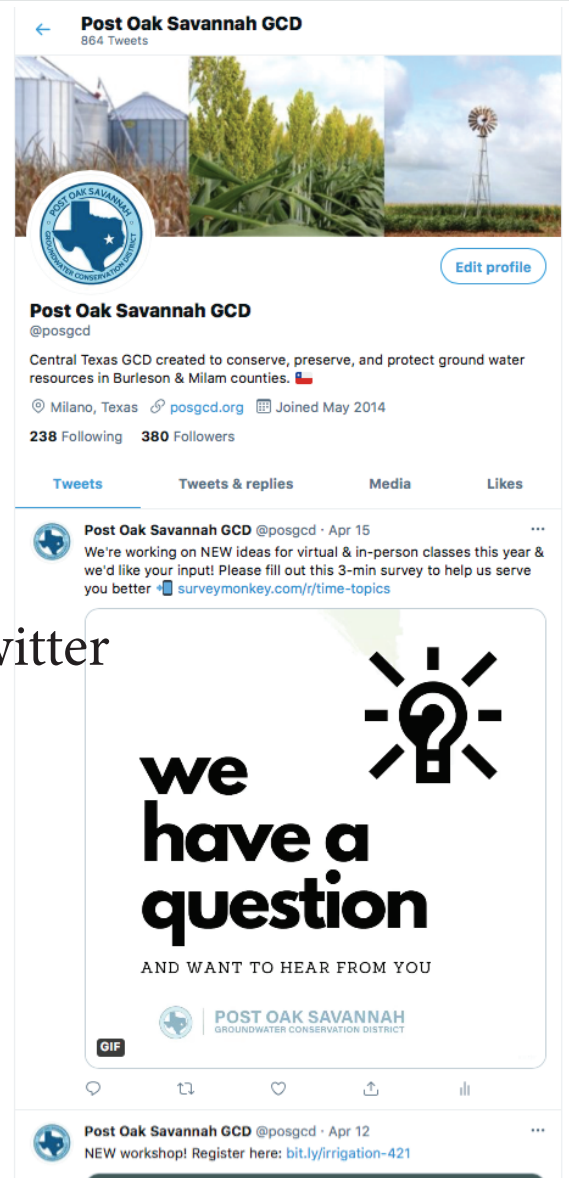

Landscape Irrigation; May 27th! Learn how to create a low-maintenance, water-conserving irrigation plan using harvested rainwater or regular water supplies!

Ask Me Anything - Brown Bag Lunch Program

“Ask Me Anything” is an open session with a member of our Staff, Board Member or other water-related specialists that’s meant to be a casual and easy ways to share or ask questions openly. Questions can be as simple as how to our website, how to apply for a Rainwater Harvest grant, or something more specific about your well or where your water comes from – we’re here for it!

Good turnout for new program, several attendees at each program.
