

**Certification of Community Water System Emergency Response Plan in
Compliance with America's Water Infrastructure Act of 2018**

Part (A): Community Water System Identification

Community Water System Name: Central Texas Regional Water Supply Corporation

Community Water System Complete Mailing Address: PO Box 15851, San Antonio, Tx, 78212

Public Water System Identification Number: TX0260051

Population Served: 1,999,472

Part (B): Certification Date

Date of the certification: 3/31/2020

Part (C): Certification Statement

I, Weir Labatt III

[Name of certifying official]

hereby certify that the community water system named under Part A has completed an emergency response plan that incorporates findings of the risk and resilience assessment conducted under Section 2013(a) of America's Water Infrastructure Act of 2018 for such system (and any revisions thereto). This emergency response plan includes:

1. Strategies and resources to improve the resilience of the system, including the physical security and cybersecurity of the system;
2. Plans and procedures that can be implemented, and identification of equipment that can be utilized, in the event of a malevolent act or natural hazard that threatens the ability of the community water system to deliver safe drinking water;
3. Actions, procedures, and equipment which can obviate or significantly lessen the impact of a malevolent act or natural hazard on the public health and the safety and supply of drinking water provided to communities and individuals, including the development of alternative source water options, relocation of water intakes, and construction of flood protection barriers; and
4. Strategies that can be used to aid in the detection of malevolent acts or natural hazards that threaten the security or resilience of the system.
