Gary:

I am okay with Alcoa's responses to INTERA list of deficiencies if ALCOA's response is considered as a supplement or amendment to the application and if approval of the application is contingent on ALCOA conducting a video log and providing a tabulation of the screened sections for the 11 wells identified in INTERA letter.

INTERA recommends that ALCOA provides a copy of the video log to POSGCD so that POSGCD can use the log to validate ALCOA's tabulation of well screen intervals.
