

August 18, 2022

Caldwell Civic Center

9:00 a.m. to 3:00 p.m.

FREE ADMISSION & LUNCH PROVIDED

We will have a panel of speakers giving updates on POSGCD's important water well Monitoring system. Currently, POSGCD has over 400 Monitoring wells to help understand our aquifers. Steve Young will also explain the DFC Compliance of the District.

Michael Redman

Michael received a Bachelor's of Science in Biology: Environmental studies and a Master's in Business Administration from Schreiner University. Michael joins the POSGCD staff with experience gained working at Bandera County River Authority & Groundwater District and Barton Springs Edwards Aquifer Conservation District.

Bobby Bazan

Bobby has worked for the District since January 2013. He has a Bachelor of Science in Agricultural Systems Management and a Masters of Science in Water Management from Texas A&M University. Bobby previously worked for the US Forest Service Research as a Hydrologist.

Steve Young

Steve Young is a Principal Geoscientist with INTERA, Inc in Austin, Texas. He holds advanced degrees from Stanford University and the University of Waterloo. Dr. Young has worked for over 20 GCDs and currently serves as the Post Oak Savannah GCD hydrogeologist. His expertise is with characterizing and modeling groundwater flow through aquifers. Dr. Young is a Professional Engineer and Professional Geoscientist.
