Dear GMA-12 Representatives,

The League of Independent Voters of Texas is a 501c4 nonpartisan, nonprofit membership association for voters of all persuasion who call themselves independents. Our membership includes many central Texas landowners and citizens who are concerned about the sustainability of our natural resources and the ecosystems that depend on them, along with the vitality of our rural communities who depend on the availability of water,

We have followed the Desired Future Conditions process at GMA-12, and appreciate this opportunity to give input to the "Process Followed by GMA-12 in Adoption of Desired Future Conditions" in the next joint planning period.

Because we could not have said it better ourselves, we simply recommend to you, on behalf of our membership, the implementation of the comments of stakeholders Environmental Stewardship and the Simsboro Aquifer Water Defense Fund.

Thank you.

*Linda Curtis*, Chief Organizer
