

# GROUNDWATER WELL ASSISTANCE PROGRAM

## Summary Update - 2022

The following numbers represent the number of wells that have been investigated and/or serviced under District GWAP efforts. Work performed during servicing include lowering and/or replacing of pumps and components such as downpipe, cable, control box, etc.

A summation of the costs to the program are also included for reference. Budget is approved by the Board of Directors each calendar year and funds not expended are carried forward. The amount expended, in addition to well service costs, also includes costs incurred for science models and review.

No. of Wells Serviced	38
Total Spent on Well Services	\$448,481.11
Average Cost per well	\$9,966.25
Maximum Cost	\$48,438.80
Minimum Cost	\$599.20
Funds Spent on Science	\$12,607.25
Total Funds Committed	\$590,081.90
Total Funds Expended	\$460,977.71
Costs Invoiced by District (Vista Ridge & I130 Leases)	\$72,728.47
