

**Subject:** FW: Updated SCADA Proposal  
**Date:** Monday, January 9, 2023 at 1:56:07 PM Central Standard Time  
**From:** Jerald Brunson  
**To:** gwestbrook@posgcd.org  
**Attachments:** image001.jpg, Proposal 2022 SCADA System Improvements 12162022.pdf

We talked several months ago about utilizing the remaining funds (since the bid was well below projection. The attached is for more upgrades for the Water Treatment Plant. The additions include:

1. Piping and fittings that failed when sand blasted.
2. An in-line chlorine analyzer. This will eliminate wastewater resources from under or over chlorination.
3. A TCEQ mandated Chlorine alarm.
4. Updates on the SCADA computer and software. The current computer is 8 years old and the software hasn't been updated since 2013. This unit controls the system and is a major cause or potential cause of water loss.

I just want to confirm that our conversation and your approval is documented for the City's records.

Thanks again for this help. It is a great project and we are looking forward to completing it.
