Hello Directors,
Please see the email below from Stefan Schuster confirming a permanent permit amendment to reduce Carrizo production which followed my conversation this morning with him and Vista Ridge officials.

Sincerely,
Gary Westbrook

Subject: Vista Ridge Amendment

Gary,

Thank you for your time earlier today to discuss our concerns in regards to the permit and the Temporary Amendment.

It is the intent of Vista Ridge LLC to continue to meet permit requirements and POSGCD management objectives. In the pursuit of a permanent amendment, we would like to propose a stair-step approach to achieve the production reduction in the Carrizo Aquifer. First, we would propose to reduce Carrizo production up to 12,500 AFY in 2023 by filing for a permanent amendment this year that includes the instantaneous Simsboro production values of the Temporary Amendment. Second, Vista Ridge will continue to explore options to increase production in the Simsboro through modifications of existing wells and would file for a subsequent permit amendment to further reduce Carrizo production. Finally, Vista Ridge will continue to evaluate the installation of the 19th well and its interrelated operational and funding requirements in a timeframe that extends beyond September 2024 as contemplated in the Temporary Permit.

We look forward to working with the POSGCD board on finding a mutually agreeable solution. Thank you for your consideration.

Stefan
